

# Fenix TX, Tearjerker

Picture's on the wall just waiting there to fall  
Still remind me that painful holiday can almost hear you say  
Please don't miss me too long  
What did I do wrong  
Could've sung a different song you were my tune  
Make my heart believe a want is not a need  
And I'm all right without you  
The days go by the nights don't change  
The stars still spell out your name  
I will wait for you  
The world has let me down  
Is it you're just not around  
I've lost my reason all the memories  
Every smile you gave to me you can keep them  
The days go by the nights don't change  
The stars still spell out your name  
I will wait for you  
I will wait for you  
I will wait for you  
I will wait for you  
I will wait for days go by  
And still I will wait for you
