

# Fergie, Love Is Pain

You don't know how it feels to be me  
wish you could feel it  
you could never survive this burning  
forever growing inside a  
shell that you call a body  
what have you done to us

you know when I'm most insecure  
you bring me down further  
I could never live up to perfect  
Just when I've had enough  
your views change  
love fills me up  
it's fire we're playing with  
and I'm like a moth attracted to the flame

one day when you wake up missing me  
I hope you go insane  
cause pain is love and love is pain  
cause pain is love and love is pain  
cause pain is love and love is pain

and when they all act crazy  
you will appreciate me  
cause no one else will love you more  
and take the pain from your thoughts  
and when yur world is falling  
baby I'll let you crawl in  
when you can love me all the way  
cause pain is love and love is pain  
cause pain is love and love is pain
