

# Fergie, Tension

all these vibes, so blase blase blach  
I need your high,  
c'mon /3x  
when we lock eyes  
I'm yours /3x

your body got these moves  
your body ./.2x  
higher  
your body – I know it wants me  
your body is blowing my mind, cause

all this tension that we can't control  
got me catching feelings on my dance floor  
damn, I;m hoping that we take it home  
got me catching feelings on the dance floor

ain't gonna lie, you got me open wide  
the way you move is setting me of fire  
my throat is soar  
come pour some more  
you're all mine  
yours, I'm yours /2x  
your body got these moves  
your body ./.2x  
higher  
your body – I know it wants me  
your body is blowing my mind, cause  
all this tension that we can't control  
got me catching feelings on my dance floor  
damn, I;m hoping that we take it home  
got me catching feelings on the dance floor

so forget distance  
come and pull my tight  
come you feel this tension?  
we could go all night  
we could get it started  
make it radiant  
I;m gonna call you sally  
when you make me sweat  
and you know like I know  
I'm getting alone /3x  
I'm about to take you home

all this tension that we can't control  
got me catching feelings on my dance floor  
damn, I;m hoping that we take it home  
got me catching feelings on the dance floor

all this tension that we can't control  
got me catching feelings on my dance floor  
damn, I;m hoping that we take it home  
got me catching feelings on the dance floor
