

# Fermata, Cliffs

You've been telling me  
To go over the cliffs  
You've been warning me  
To give up  
I won't be missed  
You've been begging me  
To do away with all of this  
Darling there's no way in or out  
Darling there's no way in or out

I've been watching you  
Ever since you've been in my midst  
I've been wanting to touch you  
But somehow I resist  
I've been longing to kiss  
The stars upon your lips  
Darling there's no way in or out  
Darling there's no way in or out

You've been begging me and begging me and begging me  
To go over the cliffs  
You've been haunting me and tempting me and bleeding me  
Dear god do you weep at my tears  
I've been locked in a room  
I am telling the truth  
With every one of my sins  
Darling there's no way in or out  
Darling there's no way in or out

Is it worth that leap into the night  
Is a chance worth taking a chance worth changing your life  
Is it worth that leap into the night
