

# Fetch, October Sky

Snow is fallen on October Sky  
I wish you could see it 'cause i don't lie  
All you can see is the snow  
And thats why I chose not to go

I hang my coat up on the rail  
I think of you when I tell this tale  
We should be together forever  
But don't blame it on the weather

You think I'm crazy the sun won't last  
But as you say that the clouds go past

Snow is falling on October Sky  
Snow is falling on October Sky  
Snow is falling on October Sky  
Snow is falling on October Sky

I feel so cold when it snows  
I feel the frostbite on my toes  
But I shiver and shake, all night  
Waiting for you to hold me tight

I put on the fire, turn up the heat  
Then watch the people meet and greet

You think I'm crazy the sun won't last  
But as you say that the clouds go past

Snow is falling on October Sky  
Snow is falling on October Sky  
Snow is falling on October Sky  
Snow is falling on October Sky

You think I'm crazy the sun won't last  
But as you say that the clouds go past

Snow is falling on October Sky  
Snow is falling on October Sky  
Snow is falling on October Sky  
Snow is falling on October Sky  
Snow is falling on October Sky  
Snow is falling on October Sky  
Snow is falling on October Sky

Snow is falling, falling on October Sky
