

# FFH, We Sing Alleluia

There's an anthem ringing out  
You can hear it clear and loud  
Coming from the hearts of men  
Echoing the Great I Am

And it goes on and on and on and never fades away  
On and on and on and so we join today

We sing alleluia  
Praise Your name and glorify  
We sing alleluia  
Lift our voices to the sky

There's a song that never dies  
It lives within the heart that cries  
Out for mercy on the streets  
It's a cry of love and harmony

And it goes on and on and on and never fades away  
On and on and on and so we join today

Men have praised You  
Through the ages  
Followers who have gone before us  
So we stand before You  
And we lift our voices  
All together we join the chorus
