

Fickle, Sex In The Family

Sex in the family, it's not that dirty
Sex in the family, my house is always horny

If you wanna know all about me and my family, (It's just) Sexuality
I remember one day alone in my bed, my father close to me, he said don't worry
It's not peachy to have a piece of family inside your body totally free

Sex in the family, my friends just come and see
Sex in the family, my house is still holly

When daddy leaves for the factory I call my sister back from University
Since my mother's here, their rears are what I fill
As you can see it's for eternity

Sex in the family is all I can not miss
Sex in the family, just like Jesus and Mary...
