

# Fiction Family, When She's Near

My cover is blown  
I'm faded and dreary  
When my love is away  
My cover is blown  
When she leaves me alone  
I'm weathered and weary  
The nights are the days  
When my love is away

When she's near the new year's here  
And there is not a resolution that I can't do,  
I see things clearly when she's near me  
When she's near me all the world is new

When life has me vexed  
I stop thinking clearly  
I can get so afraid that I push her away,  
Repentance is next  
I miss her so dearly  
See those nights are the days  
When my love is away

When she's near the new year's here  
And there is not a resolution that I can't do,  
I see things clearly when she's near me  
When she's near me all the world is new

I'm waiting for the day when I am on her mind,  
I'm waiting for the day when love's no longer blind, blind

When she's near (when she's near)  
When she's near (when she's near)  
When she's near (when she's near)  
When she's near (when she's near)

When she's near the new year's here  
And there is not a resolution that I can't do,  
I see things clearly when she's near me  
When she's near me all the world is new  
When she's near me all the world is new  
When she's near me all the world is new
