

Fiddler's Green, Don't Stand So

Move move along but don't you get me wrong caus
I'm just a muggle man
You're free as a bird but don't forget my word
Don't stand so close to me

You are the living sindex and you're number one
I'm trying hard to get away so don't you get me wrong

But don't you dare to take it out on me if I don't care about you
I'll never swear that I recall your name, it's up to you

Live it up, set yourself free but don't stand so close to me
Live it up set yourself free but don't stand so close to me
Don't stand so close to me don't stand so close to me

Female attraction, maybe affection I was born a slave
I see you walking high heel stalking I just can't help myself
I guess I want a super girl who is dressed to kill
I guess I need a super girl who is worth the bill
