

# Fiddler's Green, Out Of The Rain

Wipe out my past, wipe out my brain  
And let the sun shine down on me again  
Wipe out my tears wipe out my name  
Get me out of the rain  
I'm living on time I borrowed from you  
I'm wasting my days feeling so blue  
Wipe out my tears and wipe out my brain  
Just Gget me out of the this out of this pouring rain

Won't you wipe out my pain  
And give me your love  
Let the sun shine again, I'm beggin you  
Won't you wipe out my pain  
And give me your heart  
Let us make a new start

I rise with the dark and not with the lark  
I rock the boat no matter which road yeah  
I wanna find someone like you  
Want you out of the blue  
So wipe out the past and wipe out my brain  
Let the sun shine down on me again  
Nothing is lost and nothing's in vain  
Just get me out of this out of this pouring rain

Won't you...

Come listen I'm lighting a light, for our love and put it in my window  
Shining there for you in this big cold town in this dark of night  
Hope we find our way, I hope we find our way,  
I hope we find our way again
