

Fields Of The Nephilim, Back In Gehenna

All Great plains of the Earth
Are now lighted by fire
Now gather under wrecked land
From these horsemen in iron

This is the fear
And all you've turned up
Now the atmosphere
Is thicker than blood

From Gehenna to here
A release of sin
It's become our lair
We!
The Nephilim

See the woman thrive
In the blood from Heaven
Burn in banished fire
Like a scene called Hell
See the bloody fire
To you is forsaken
Burn this bloody fire
Burn
Burn Hell
