

Fields Of The Nephilim, Returning To Gehenna

All great plains of the earth
Are now lightened by fire
Now gather under wrecked land
From these horsemen in iron

This is fear
And you've all turned up
This atmosphere
Is thicker than blood

From Gehenna to here
A release of sin
This is our lair
We
The Nephilim

See the woman thrive
In the blood from Heaven
Burn is banished
Like a scene called Hell
See the bloody fire
To you is forsaken
Burn this fire
Burn
Burn Hell
