

Fifteen, Ain't Life A Drag...

All the money in the world ain't never gonna make you happy
All the money in the world ain't never gonna set you free
All the wealth you can steal and hide away ain't never gonna bring you no kind of security
When just about everybody else in the world wants to burn down your house and steal all your money
Ain't life a drag when you got it all
Then you gotta find out it's not what you wanted after all
Ain't life a drag when you got everything you want
And just about nothing you need
All the cocaine in the world ain't never gonna make you happy
All the alcohol in the world ain't never set no one free
All the speed and cigarettes and coffee ain't never gonna bring you no kind of health
All the heroin in the world ain't never gonna give you nothing you ain't already got inside of yourself
Ain't life a drag when you got it all
Then you gotta find out it's not what you wanted after all
Ain't life a drag when you got everything you want
And just about nothing you need
All the power in the world ain't never gonna make you happy
All the control in the world ain't never set no one free
All the people you can intimidate it ain't never gonna make you safe
What are you gonna do when everyone's got their sights on you
What are you gonna do when everyone's got their sights on you
Ain't life a drag when you got it all
Then you gotta find out it's not what you wanted after all
Ain't life a drag when you got everything you want
And just about nothing you need
