

Fifteen, Imagination

Took a walk through my imagination
Thinkin' maybe I'd find her there
I got a little scared
Take a walk through your imagination
And maybe you'll find her there
She hasn't got a care
She doesn't let herself get caught up
She'll always be free
She doesn't get that close to me
I saw that she had a different way of lookin' at me
She could see my fear
She say everything will be all right
And shines with reassurance
As she walks away
If I hold her dear without restrictions
She'll come runnin' to me
When she gets the time
So young with the best intentions
There's no way she can fall
Somethin's there to catch her
Captivated by the way she smiles at me
I hope she sees me smilin' at her
I'll dream about her forever
