

Fifteen, No

I learned a new word today, that word is NO
You don't get all the money I make just cause you own real estate
You don't get forty hours a week from me
You don't get to make my choices for me
You are only your own authority
You don't get possession of me cuz you got something I need
You don't get to abuse me at all just cuz you're big and you think that I'm small
You don't get possession of me just cuz you got something I need
I learned a new word today, that word is NO.
