

Fifth Avenue, Rainbow

Verse 1:

How do you mend a heart, when your whole
World is falling apart
Where do we start?
How do you say goodbye, to the best thing
In your life
Cuts like a knife

Bridge:

You're part of everything I am
Without you I'm nothing
I can't sleep
I can't eat

Chorus:

Who said that time was a healer
They can't be feeling what I'm feeling
Oh make it go away
Baby won't you make it go away
I need a rainbow in my heart

Verse 2:

When did forever end?
When did the blue sky turn to cloud
I miss you know

Bridge:

You're part of everything I am
Without you I'm nothing
I can't sleep
I can't eat

Chorus:

Who said that time was a healer
They can't be feeling what I'm feeling
Oh make it go away
Baby won't you make it go away
I need a rainbow in my heart
I need a rainbow in my heart
My heart
In my heart
In my heart
