

# Fifth Harmony, No Filter

(Dinah)

Open your heart up and let me inside it  
Open your heart up, heart up

(Ally)

Take off the mask for me tonight,  
I wanna see you for who you really are,  
And baby, you don't have to hide,  
I wanna see every flaw and every scar

(Normani)

Right here, right now  
Put your fences down (oh)  
Right here, right now  
Right here, right now

(Camila)

You and me  
With no smoke and mirrors, mirrors  
Let me see, your crystal clear, clear

(All)

No filter (x7)

(Lauren)

Cover the colored picture page  
I wanna give all the secrets that I keep  
Unravel me in every way  
I wanna give every single piece of me

(Normani)

Right here, right now  
Put your fences down (oh)  
Right here, right now  
Right here, right now

(Camila)

You and me  
With no smoke and mirrors, mirrors  
Let me see, your crystal clear, clear

(All)

No filter (x7)

(Dinah)

Open your heart up and let me inside it (x3)  
Open your heart up, heart up

(Camila)

(Woah) you and me  
With no smoke and mirrors, mirrors  
Let me see, your crystal clear, clear

(All)

No filter (x14)
