

# Fifth Harmony, Over

Walls are shaking  
Now that your windows break  
This place is out of control  
This place is out of control

Everybody in a trance  
All we wanna do is dance  
This place is out of control  
Yeah, we are out of control

When the sadness comes  
It got us sitting up alone  
Cause we don't wanna go home  
Yeah, we don't wanna go home

And now the party is over  
We just wanna get louder  
We never ever wanna stop  
So we can move this to the parking lot  
Lets take this somewhere else

Cause now the party is over  
We don't wanna get older  
We never ever wanna stop  
Now its time for us to light it up  
Take it somewhere else  
Cause now the party is ov-er er

The sun comes up now  
All we do is stand and talk  
Cause we are out of control  
Yeah, we are out of control

The time is ours  
Got the people in my car  
Cause we are out of control  
Yeah, we are out of control

When the sadness comes  
It got us sitting up alone  
Cause we don't wanna go home  
Yeah, we don't wanna go home

And now the party is over  
We just wanna get louder  
We never ever wanna stop  
So we can move this to the parking lot  
Lets take this somewhere else

Cause now the party is over  
We don't wanna get older  
We never ever wanna stop  
Now its time for us to light it up  
Take it somewhere else  
Cause now the party is

Know we like it crazy  
And we do what we want  
Still regret nothing  
Cause we, we don't care  
We don't care (2x)

And now the party is over

We don't wanna get older  
We never ever wanna stop  
Now its time for us to light it up  
Take it somewhere else  
Cause now the party is ov-er er
