

# Fifth Harmony, Young & Beautiful

We are, we are, the young and the beautiful  
We're alive tonight, tonight

Flying high like an airplane  
Burning stars in the Milky Way  
I'm tired cause we never say  
Never, never, no no  
Lovers come and haters go  
Won't be left out in the cold  
In the dark where you always glow  
Always, always oh, always, always oh

We are, we are, the young and the beautiful  
We are, we are, the fearless, the world is yours  
We are, we are, the young and the beautiful  
We're alive tonight, tonight

Hang with me and we're figure by  
That's forever and a whole new life  
And we're alive cause we never cry  
Never, never oh  
We're running up so we don't back down  
When our hearts are beating loud  
Sing along to the booming sound  
Always, always

We are, we are, the young and the beautiful  
We are, we are, the fearless, the world is yours  
We are, we are, the young and the beautiful  
We're alive tonight, tonight

This one goes out to the dreamers  
All the hoppers and the lovers  
Cause as long as we're believers  
We're alive, tonight

We are, we are, the young and the beautiful  
We are, we are, the fearless, the world is yours  
We are, we are, the young and the beautiful  
We're alive tonight, tonight  
We are, we are, the young and the beautiful  
We are, we are, the fearless, the world is yours  
We are, we are, the young and the beautiful  
We're alive tonight, tonight
