

# Fifty Nutz, Unlocked

I remember my lost country  
Filled with heavy roads  
My Canada will always be my land of opportunities  
Feel down for one day, and then cheer up again  
I've found through these windy roads  
Someone I want to be

Friends who I grew up with  
Keep living on and on with me  
I've nothing to forget  
Just sweet memories

Together we stand so tall  
We've built our own reality  
Running together and this will always be

Even in these rainy days, you can count on me again  
The weather doesn't matter because I've found my way  
Cold breath in the dark, reminds me that you'll always stay
