

# Fight, Can't Be Bothered

What's the f\*\*king point?  
When I'm a lazy sod  
I won't go to college  
And I won't get a job  
I sleep right through the day  
I won't even get dressed  
My parents go to work and  
Try and put me to the test

I can't be bothered with my life  
It causes grief and too much strife  
It's not my problem and I don't care  
But I have to fix it, it's just not fair

Leave me alone now  
Please get off my back  
You shout at me too much and  
I've lost track of that  
I'm going for a walk  
To get away from you  
So I can have some quiet  
To do the things I do

I can't be bothered with my life  
It causes grief and too much strife  
It's not my problem and I don't care  
But I have to fix it, it's just not fair

I can't be bothered with anything  
It's getting to my brain  
So you gotta leave me  
Before I go insane
