

# Fighting Instinct, You Don?t Know

Your eyes are watching me closely  
Somehow you think that your not seen  
You look through me in deep thought  
But all thats on your mind in my unreal faults

You dont know  
You dont know me  
You dont know  
You dont know me

I know whats going through your mind  
You think my surroundings have me blind  
I know my motives are pure and true  
You need to focus on whats best for you.

You dont know  
You dont know me  
You dont know  
You dont know me

I tried to show you  
But you think you know  
And you know that assumptions  
Wont get you far with me.

You dont know  
You dont know me  
You dont know  
You dont know me
