

Fightstar, Amaze Us

I know you've got choices to make
I hope you make them well
It only takes a click of the wrist
I hope you live to tell

We call build upon all of the ones who are without

And you,
You amaze us all,
With the hope that you bring,
It could save us all,
From the war.

I know we've got changes to make
I hope we see this through
It only takes a slip of the fist
It ends with me and you

We call build upon all of the ones who are without
a sin to cast the first stone

And you,
You amaze us all,
With the hope that you bring,
It could save us all,
From the war.

It all ends with you

You,
You amaze us all,
With the hope that you bring,
It could save us all,
From the war.
