

# Fightstar, Amethyst

She smokes like an amethyst  
Moving her way through my skin  
She moves me  
Cause East is the way I go  
But nobody seems to notice how I feel  
Keep all the lights off  
And I'll try to kill our past time  
Just to find your heart  
Please dont ignore me  
Or I'll just fall asleep  
And wake up when you're gone  
This body only needs  
To learn to feel the problem disappear  
I froze with those plastic eyes  
Cutting lose from upon this disguise  
Keep all the lights off  
And I'll try to kill our past time  
Just to find your heart  
Please dont ignore me  
Or I'll just fall asleep  
And wake up when you're gone  
She smokes like an amethyst  
Moving her way through my skin
