

# Fightstar, Build An Army

We'll hold this off to build these machines.

Crush these empires to ashes and make them wonder.

Just look out of your window and you'll find us here,  
We can make a stand to stop the uproars,  
If you can fight in wars for that.

Crush these empires to ashes and make them wonder.

If you could give us the answers now.

Help us to end all the suffering,  
We'll clean the blood from all of our eyes,  
Take the rage away from us.

If you could give us the answers now.

We could crush these empires to ashes and make them wonder.

I hope that in time that I'm okay with all of this. X2

Don't you make me cry.

Crush.
