

Fightstar, Carry Her

It's so hard to say goodbye
When I know it's for the last time
I know it's for the best

It won't be long 'til you get there
And all the years move so slowly
I'll see you on the otherside
So go and carry her
Please go and carry her

I hope you're comfortable
I hope you're both smiling

It won't be long 'til you get there
And all the years move so slowly
I'll see you on the otherside
So go and carry her
Please go and carry her
