

Fightstar, Damocles

Gut the animals
They won't feel a thing
You're all pigs in shit
You should just
Call your mothers out
They'd be so proud of you
As you celebrate
Human suffering
You make it obvious
Should we hang them high up under the gallows?
Are you ever going to learn?
Are you ever going to value this life?
We are privileged
We are all obliged
Just go fuck yourself
I am your sword of Damocles
Get down on your knees
Will you have mercy on us please?
How did we all fall down?
You make it obvious
Should we hang them high under the gallows?
Are you ever going to learn?
Are you going to value this life?
You live like animals
Now it's your turn
We take to the skies as you bury yourself
