

# Fightstar, Fight For Us

hope you stay awake  
And live through this  
These smoke filled rooms  
Won't clear

And you'll see the hearts  
That will break  
If you walk away and just leave us here  
To bury this mess

Maybe one day you will come and fight for us  
Maybe one day you will come and fight for us  
End the suffering

I hope that when you sleep  
You see this face, holding on for life  
Cause you see, the time that it takes  
For all this to break, And you've gone away  
And left us all behind

Maybe one day you will come and fight for us  
Maybe one day you will come and fight for us  
End the suffering, come and fight for us  
End the suffering

Come and fight for...  
Come and fight for...  
Come and fight for...  
Come and fight for us
