

# Fightstar, Follow Me Into The Darkness

I woke on the floor next to an empty bed  
Summer will come all in an afternoon  
Days come and go, like the weather it changes  
Come for the weekend and we'll sail away  
You, you are never alone [x2]  
Days spent in the rain  
Some people say its a shame that we  
Only get to live once  
But if you'd seen the things that I've seen..  
Follow me, into the darkness  
And sink your fears into the night  
I woke on the floor next to an empty bed  
In my dreams, there were monsters and what they said was,  
Follow me down, into a dark place  
Well come back and see me when I fall asleep  
You, you are never alone [x2]  
Days spent in the rain  
Some people says it's a shame that we  
Only get to live once but if you'd seen the things I've seen..  
Follow me into the darkness  
And sink your fears, into the night
