

# Fightstar, Give Me The Sky

I'd give the world to you and I mean it  
But only if you give me the sky  
So I can watch over you all day  
And keep the clouds away  
The tears roll down from your eyes  
And stick to your cheeks like glass  
The salt in your mouth  
Has dried your words for now  
I'd give the world to you and I'd mean it  
But only if you give me the sky  
So I can watch over you all day  
And keep the clouds away  
Prescribe me some time so I  
Can carry you through the worst of it  
Or tell me if I'm  
Just wasting all my time  
I'd give the world to you and I'd mean it  
But only if you give me the sky  
So I can watch over you all day  
And keep the clouds away  
All of the lights that guide us on  
Will burn so bright, tonight  
We'll start the clocks, this is our time  
To live, our lives
