

# Fightstar, Speak Up

I'll never do it again  
I swear I never will  
I will never speak to you again  
You talk to me  
I swear I'll hurt me

Speak up is a word you can't say without falling down  
How do you know  
How do you notice  
Speak up is a word you can say but you let me down  
Just answer me

You'll never feel you  
You do it everytime  
You know you need me  
Yeah hold me  
Fuck you all or show you now I'll die  
You talk to me  
That's where we'll see

Speak up is a word you can't say without falling down  
How do you know  
How do you notice  
Speak up is a word you can say but you let me down  
Just answer me
