

Film School, Sick Hipster Nursed By Suicide Girl

Down, always there by your side
Down, always been there by your side
Miles away and I see inside
All the makeup can't hide what's inside

It's doubtful you're alright
She's always by your side
Drowned, the weight was wasted on that night
Drown away, miles away and no-one in site
Drawn away, miles away, you ask me inside

It's doubtful you're alright
She's always by your side
Here you go, what you know, alibi
It's doubtful you're alive
She's always by your side
In your site
