

# Filter, White Like That

one thing is for sure  
I don't need it  
makes my life a war  
what a bore  
don't you understand  
it wasn't ever my plan?  
I guess you just can't see  
what you do when you blame it all on me

white like that  
I'm white like that  
It's all the same

said one thing and mean another  
who are you gonna lose?  
who are you gonna choose?  
what do you think I'm gonna do?  
what are you thinking?

white like that  
I'm white like that  
It's all the same

who's gonna lose?  
so who's gonna lose?

they call me white trash

white like that  
I'm white like that  
It's all the same  
white like that  
I'm white like that  
It's all the same game

so who's gonna lose?  
who's gonna lose?
