

Finger Eleven, Alkaline(Live As The Rainbow But

I'll tell you and I will
But I will because I will tell
But Im so shamed
Too shamed too yes

?

But I wont go blame my friend

Oh God Oh no what have I done

I made a stand now I'll pay

But time will heal my wounds

So upset

Dont you start things
Every part of me
Im taking alkaline but Im me
Dont you start things
Every part of me
Dont wait for any answers for me

?

You had your chance and now you restart
and that will be your last dual

But time will heal my wounds

So upset

Dont your start things
Every part of me
Im taking alkaline but Im me
Dont you start things
Every part of me
Dont wait for any answers for me

?

I got what Im made for
?

Oh God oh no what have I done?
I made a stand now I'll pay

But time will heal my wounds
So upset

Dont you start things
Every part of me
Im taking alkaline but Im me
Dont you start things
Every part of me
Dont wait for any answers for me

Yeah
answers for me
Yeah dont tell me

For me
Dont even think that

For me
Dont even think that

Scott:Thank you very much

I think these are the real lyrics but there was some i couldnt make out
because this song is a live recording
