

Fingertight, Fear In Me

The fear in me is what keeps me up at night.
And you're killing me but it makes me feel...
Not here for the revolution,
not here for the new solution
not here to justify when you came back our mothers cried.
Well I'm just a bitter man who came up with a better plan.
In case you're wondering, I'm fine,
I'm doing just the best that I can.
The fear in me is what keeps me up at night.
And you're killing me,
but it makes me feel alive.
The fear in me is what keeps me up at night...
And you're killing me...
Not part of my generation.
Not here for the new temptation.
Not here to testify,
when you came back to watch us die.
I'm just a bitter man who came up with a better plan.
In case you're wondering, I'm fine,
I'm doing just the best that I can.
The fear in me...
And this is for all of you
(The ones that believed in me).
This is for you and me alone
(The ones that are here for me).
This is for all of you and my friends to feel
(The ones that believed in me).
This is for you and me
(The ones that are here for me)
And you stumbled down the line
(You should've you should've you should've)
and you stumbled on my lie again...
and you stumbled down the line...
'Cause everything was so perfect, until I found my fear.
The fear in me...It makes me feel alive.
