

Fingertips, You're Gone (Everybody Knows That)

Dry the tears behind my eyes
When I whisper your name
You said you come here every night
Just to hear me sing

Everybody knows that I don't wanna grow
Everybody knows that I don't wanna know
Everybody knows that I don't wanna grow
Everybody knows that you're gone

Ah, don't you feel alive
When you dance between my thoughts
You swore to come here every night
Just to sing our song

Everybody knows that I don't wanna grow
Everybody knows that I don't wanna know
Everybody knows that I don't wanna grow
Everybody knows that you're gone

Hurry up and please just hold my hand
So I can be released

Everybody knows that I don't wanna grow
Everybody knows that I don't wanna know
Everybody knows that I don't wanna grow
Everybody knows that you're gone
Everybody knows that I don't wanna grow
Everybody knows that I don't wanna know
Everybody knows that I don't wanna grow
And, Everybody knows that you're gone
That everybody knows
That I don't wanna grow
And everybody knows that you're gone
That everybody knows
That I don't wanna grow
Everybody knows that, you're gone
