

Finley Quaye, Adorable

Take me down to the river
That we started to flow
How can you be a flower?
When you're fighting the power
With my hands on your hips
I'm caressing your lips
Your exceptional baby
And adorable baby
She lives out of her handbag
With no life in her phone
I see her breaking down
And she's all on her own
When we go out to party
Only once in a while
You're adorable
And exceptional baby
You got me right where you want
Not where I want to be
I got you right where I want you
Not where you want to be
Don't get out of your mind
Like most people we know
You're exceptional baby
And I want you to know

With my hands on your hips
I'm caressing your lips
Your adorable baby
And exceptional baby

Take me down to the river
That we started to flow
How can you be a flower?
When you're fighting the power
When we go out to party
Only once in a while
You're adorable
And exceptional baby
Don't get out of your mind
Like most people we know
Your adorable baby
And exceptional baby
With my hands on your hips
I'm caressing your lips
Your adorable baby
And exceptional baby
Your adorable baby
And exceptional baby
