

# Finley Quaye, Burning

Remove that attitude  
I'm in love with you  
I don't care who knows about us  
If all the world could see what you do with me  
I'm sure we'd have many blessings  
Everyday my heart is with you  
Because we cannot always be together  
Everyday I feel love  
In all my preparation  
This happy satisfaction  
Is making my decision  
'Cos I'm the cat who likes the cream  
If you know what I mean  
Together we make steam  
Mix up fire and water  
You got to have a good sense of humour  
To stand the rumour  
You got to be jolly  
We are yearning yearning  
We've seen it many times before  
We're burning burning  
That's why I'm so sure  
Everyday my heart is with you  
Because we cannot always be together  
Everyday I feel love  
In all my preparation  
This happy satisfaction  
Is making my decision
