

# Fireflight, So Help Me God

You sit beside me  
And I love you  
But I hate you  
I don't want to feel this way  
But I can't stop  
You reach for my hand  
But I move it  
Before you can  
I won't let you have the  
Power once again

So help me, God  
To let this go  
To let this go  
So help me, God  
(Become what I believe)  
To break this hold  
(I'm afraid to leave)  
To find myself  
(I just need to breathe)

You think you know me  
But you changed me  
Into somebody  
That I don't ever want to be again  
I'm letting go now  
Of this burden  
I've been holding  
I've been hurting myself now for way too long

It's not too late  
It's not too late  
To leave it all behind  
It's not too late  
It's not too late
