

Fireflight, Star Of The Show

I lost my way home
Looking at myself
Searching for nothing
I knew all along
Where I belong
Everyday I
Stand in the light
I can take the stage
But you are the one
You give me the Love

Chorus
You know what You are
You're the star of the show
Cuz you are the one
I cannot breathe in, without a reason
You're the star, You're the star, You're the star

I'm coming home now,
Closer to you
You show me the way,
You turn me into
Something that's new

I thought that I knew You,
But I was only pushing You away,
Now I can hear you
I'll listen to every word you say
