Fireforce, Aeons

Aeons I walk the earth Looking for her, who makes me whole again Lived my life a thousand times Only a few I remember, where and when

Take my soul - make it whole Like many times before Take my hand - walk the land We're heading for the storm

Forever I return for you Forever I will walk the earth for you

Everything's a cycle Mortal life ends, it's not too late! Ages pass and in despair Somewhere far in time, when you're there!

Forever I return for you Forever I will walk the earth for you
