

# Fireforce, Horus (Bringer Of Order)

I was born to Isis  
Ready to rule - Behold !  
More a king than my brother  
That's what my mother told

Osiris, my father, was murdered by Seth  
Envy had burned his soul  
Hacking his body to bits with hate  
Ruling the kingdom his fate

Horus - Justice should triumph  
Horus - Give him his throne  
Horus - Lord of the Earth  
Horus - Give him your death

The council of gods gave power to me  
Seth lost his crown  
Fight for my right - ready to strike  
Trying to bring me down

Isis was there by my side  
Still I've lost my eyes  
Hathor, losing my hand  
Summon my seed - Seth lies !

Horus - Justice should triumph  
Horus - Give him his throne  
Horus - Lord of the Earth  
Horus - Give him your death

Please, let reason prevail  
Eighty years of war  
Winning battles a thousand times  
I can take it no more

The battle goes on, here on the Nile  
Sinking ships of stone  
Osiris ! The gods agreed  
Give him his throne !

Horus - Justice should triumph  
Horus - Give him his throne  
Horus - Lord of the Earth  
Horus - Give him your death
