

# Fireforce, To the Battle

Sitting on our panzers, heading for the east  
Fighting for our glory  
Our force will be unleashed In our hearts forever, fulfil the prophecy  
We will ride victorious  
We'll strike you'll see!

On plains and dust we ride  
A wall of steel with pride  
The smell of death is near  
We will fight

To the battle - Stand up and fight  
To the battle - We ride!  
To the battle - Fight! Fight!  
To the battle - Stand up and fight

Rolling through the desert storm  
Hot like living hell  
Cannons of destruction  
Hear the soldiers yell!

Rolling through the desert  
Hot like living hell  
Heading for Al-Alamein  
The tolling of the bell  
21. Panzer, prepared to fight and die  
Led by the Desert Fox  
Comrades at our side

On plains and dust we ride  
A wall of steel with pride  
The smell of death is near  
We will fight

To the battle - Stand up and fight  
To the battle - We ride!  
To the battle - Fight! Fight!  
To the battle - Stand up and light

Sounds of the desert, oasis in sight  
Blazed gun positions, in the fading light  
All guns blazing, attacking with no fear  
The sky is clouding over, the ending is near

On plains and dust we ride  
A wall of steel with pride  
The smell of death is near  
We will fight
