

# Firehouse, What's Wrong?

Brother please don't turn your back on me  
I was once just like you but I've fallen through the cracks of society  
Why can't anyone just lend a hand  
Doesn't anybody care, doesn't someone understand  
We should be ashamed because we lay the blame  
Not on ourselves but on this day and age

(Chorus:)

What's wrong with everybody  
Why can't anybody get along  
Well I think we've got a problem  
We've got to help each other out or we'll never figure out  
What's wrong with everybody

Five o'clock another traffic jam  
All lanes merge to one and it seems like no one gives a damn  
Why can't we just let each other in  
But we cut each other off and we just keep on driving

We should be ashamed because we lay the blame  
Not on ourselves but on this day and age

(Chorus)

Why can't everyone just live in peace  
Well we've got to pull together and put an end to this insanity  
Why can't everyone just lend a hand  
Doesn't anybody care, doesn't someone give a damn

(Chorus)
