

Firerose, Time (feat. Billy Ray Cyrus)

Smoke has turned to ashes
No fire from the flame
Now we stand here wondering
Which one is to blame
Time

Years have turned to memories
Future's now the past
Who turned it all upside down
Flipped the hourglass

Time
Tell me who made time
Time
Tell me who made time

I know I don't know everything
But I know what I don't know
One thing that I know for sure
Is I can never let her go
So tell me who made time

Tell me that she's mine
Till the sun no longer shines
Forever will be fine
Tell me who made time

If I could ask for one last prayer
And the maker would be so kind
I'd beg steal or borrow
For just a little more of that precious time

So tell me who made time
Tell me that she's mine
Till the sun no longer shines
Forever will be fine
Tell me who made time
Tell me who made time

Time Time Time
Time Time Time
Time Time Time
Time Time Time
Time Time Time
