

Fireside, Happy Porno Living

A new surprise
It gets me everytime
And because of the spring
I cant do anything
And i check up on the phone
And it works how its supposed to
Theres someone outside my door
But i just keep on sleeping

And im waiting

I spend my days at home
Where it all started

I trust my mind
Keep my windows closed
The late night shows
I follow every moment
And the night becomes my day
Its got a pleasant cold
When trees turns grey
They get hard to notice

I spend my days at home
Where it all started

Dont make me cry
Dont say that its fading
A phone call late at night
And ill just keep on waiting

I spend my days at home
Where it all started
