

Firevision, Your Wall (Inside Album Cover)

You've got a way
Of watching the world divide
You into place
Direction is lost in flight

Everyone is gone
Let it slip away
Look at you
At the end of it
This moment arise
And takes you farther inside...

In through your wall again
That covers you once youre in
In through your wall again
Until you can reach the end

I can see through
When communication is gone
The pieces of you
Fall down from the cloud you were on

Everyone is gone
Let it slip away
Look at you
Now youre at the end
This moment arises
And takes you farther inside

In through your wall again
That covers you once youre in
In through your wall again
Until you can reach the end
In through your wall

Empty your head
And the rest will come
I missed you then the moment was gone

Look at you now
This moment arises
And takes you farther inside

Lost your place but no one can tell
That you're sick
Of losing yourself

In through your wall again
That covers you once youre in
In through your wall again
And now you're complete within...
