

# Firewind, Stand United

Time and again, we would return  
For the unbelievers  
Just like in Troy, we will destroy  
Tear down the walls  
Lesson learned, tide has turned  
Time for ascension  
Kill the pain, not in vain  
We survived it all  
So we

Stand United, ignite it  
All for one and one for all's the way  
Stand United, keep fighting  
Or divided we shall fall one day

If instead of hate we all relate  
approach one another  
If we don't return, the fire will burn  
There's a resolution  
Lesson learned, tide has turned  
Time for ascension  
Break the chain, let us strain  
Together we rise  
So we

Stand United, ignite it  
All for one and one for all's the way  
Stand United, keep fighting  
Or divided we shall fall one day

Stand, stand, stand  
Stand United  
All for one and one for all

Stand United, ignite it  
All for one and one for all's the way  
Stand United, keep fighting  
Or divided we shall fall one day

Stand United, ignite it  
All for one and one for all's the way  
Stand United, Stand United  
Stand United, keep fighting  
Or divided we shall fall one day
