## Firewind, Stand United

Time and again, we would return For the unbelievers
Just like in Troy, we will destroy
Tear down the walls
Lesson learned, tide has turned
Time for ascension
Kill the pain, not in vain
We survived it all
So we

Stand United, ignite it All for one and one for all's the way Stand United, keep fighting Or divided we shall fall one day

If instead of hate we all relate approach one another If we don't return, the fire will burn There's a resolution Lesson learned, tide has turned Time for ascension Break the chain, let us strain Together we rise So we

Stand United, ignite it All for one and one for all's the way Stand United, keep fighting Or divided we shall fall one day

Stand, stand, stand Stand United All for one and one for all

Stand United, ignite it All for one and one for all's the way Stand United, keep fighting Or divided we shall fall one day

Stand United, ignite it All for one and one for all's the way Stand United, Stand United Stand United, keep fighting Or divided we shall fall one day
