

# First Aid Kit, Nobody Knows

Nobody knows me the way that you do  
Nobody knows what we have been through  
All of your love slips through my fingers  
Nobody knows me

Caught in the rain with no protection  
Biding my time with no sense of direction  
That look in your eyes keeps getting stranger  
Caught in the rain, helpless without you

Let the sorrow wash you over  
Let the sorrow wash you over

All of your love slips through my fingers  
All of your love slips through my fingers  
Nobody knows me

Nobody knows me the way that you do  
Nobody knows what we have been through  
Nobody knows me the way that you do  
Nobody knows what we have been through

Nobody knows me
